OFFICIALS HOPE TO STAMP OUT FEVER

Every Day Sees Work of Cleaning City Nearer Done.

TOTAL CASES 1,301; DEATHS, 190

Indianapolis Health Officer Compliments People of Crescent City—Authorities Claim They Are Controlling Situation.

Now cases in New Orleans since 6 p. m. Friday—16.

Total to date—1,301.

Deaths today—2.

Total deaths—190.

In the expression of Dr. Victor Moore, health officer of Indianapolis, who is in New Orleans investigating fever conditions that the people of New Orleans are the "sanest and calmest" he had found between Chicago and New Orleans and may be found the attributive cause to what, in the opinion of Dr. Warner, is that the fever, though not under actual control, is being controlled.

New Orleans, August 21.—Today's reports of the fever situation developed no material change in conditions. The night was a sweltering one, but the early reports of the physicians and inspectors showed little variation from the usual number of cases and deaths. The federal authorities said that every day sees their system of work nearer to perfection, and the opportunities for controlling the sickness enhancing. The absence of a diminution in the daily report of new cases is a source of disappointment, but it is explained that the authorities must continue to insist upon notification of every case of fever if the campaign is to be successful.

There is no opportunity now to sift the cases of malaria and typhoid from yesterday.

Louisville and Nashville officials today had the new quarantine orders of Alabama explained. They do not affect the through travel out of here nor through travel into New Orleans, but are intended to prevent people in New Orleans from back-tracking into Alabama. It has been found that efforts have been made by people who have been to New Orleans to get to points in Alabama by going to Atlanta and other points in the south.

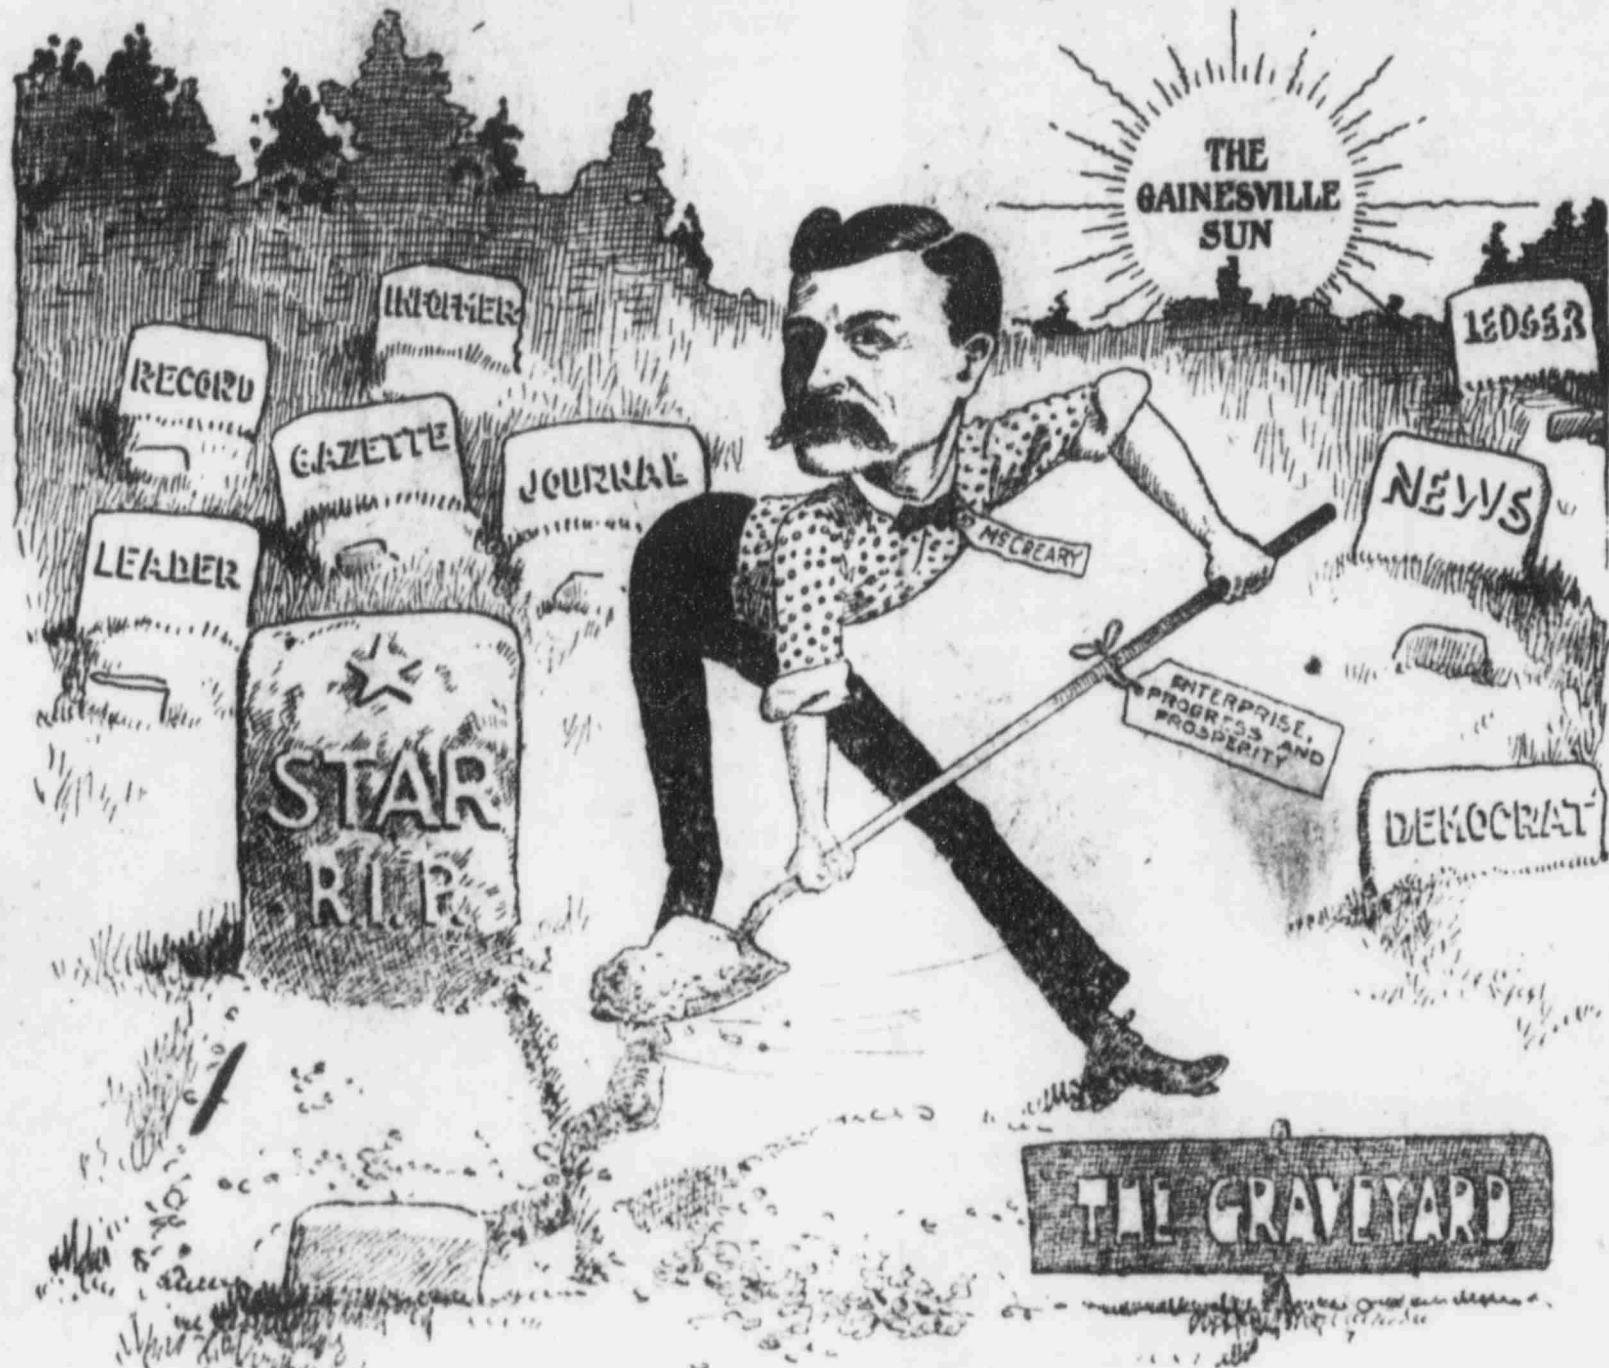

Summing up results of the campaign to date Dr. Beverly Warner said today that it was the opinion of the health authorities that while the fever could not be said to be under control, it is being controlled and that the chances are that there is no longer danger of a serious epidemic. Dr. Warner added that it was Dr. White's opinion that if it had not been for the splendid volunteer work which had been done by the citizens in screening and oiling and in taking other precautions recommended by the local health authorities, New Orleans today would probably be in the throes of an epidemic as devastating as were some of those of previous years. With conditions as they are today the feeling among all those officials in charge of the fight is one of high hope.

The death percentage continues to decrease. Each day shows a large number of patients discharged. The fever is still toward a milder type, slipping rather than toward one of virulence.

A large number of new cases tested by the seal with which the physician is making report of cases with a high practice. They turned in 62 of the preceding 24 hours.

47 Italians have reached Rev. over the Mississippi Valley. When they reached the union they were detained and reported to the presence there telephoned to the headquarters. The Italians had been chased out of East Baton Rouge, many of the point of shotguns. They were the way down, but were pre-

Can't Pass Through Alabama.

The fact that Alabama has issued an order prohibiting the passage of through passengers from infected points through that state has caused some annoyance here as it threatens to add to the difficulties of the railroads. Another evidence of extreme quarantine is given by Vicksburg, which has now put an embargo on all freight from Louisiana. The quarantine of the Mississippi towns against the gulf coast in that state bars all soldiers whom Governor Vardaman has sent from time to time to do service on the coast in maintaining the quarantine against Louisiana. The case at Starkeville, Miss., is that of a soldier who has been on quarantine duty on the coast.

Dr. J. M. Lindsley, of Nashville, has appeared at mass meetings here and sought to put questions to the lecturers. In the tenth ward he caused some excitement by rising and desiring to know how the fever got here—whether through the importation of a person of an infected mosquito.

Dr. Oechsner said now was not the time to try to settle how the fever got here—it was the time for all to co-operate in the effort to stamp it out.

Situation in Mississippi.

Miss., August 21.—Dr. J. M. Lindsley, fever expert, at the board of health, in Mississippi yesterday to inspect a case at that point. Morning reported that the patient was suffering from malarial hematuria.

The morning report from Mississippi City says that there are no new cases there.

Surgeon Warden, of the marine hospital, advises Secretary Hunter today that a rigid house-to-house inspection is being made of every town on the coast to determine whether there is any more yellow fever there.

Populists to Name Ticket.

Atlanta, August 19.—Resolutions calling upon the Populists of every county in the state to hold county conventions and nominate county and judicial tickets were adopted at a state Populist conference held in the United States hall, in Atlanta, Thursday. It was also decided to put a state ticket in the field, this to be done by the state committee to be called

ENVOYS DISCUSS ARTICLE ELEVEN

Little Work Accomplished by Peace Conference.

MAIN QUESTIONS HANG FIRE

The "Prophets of Evil" Predict that the Meetings Will Soon Cease and No Peace Treaty Will Be Concluded—Adjourns Until Monday.

Portsmouth, August 19.—When the peace plenipotentiaries met today it was with the tacit understanding that at the end of today's session they would adjourn until Monday.

The "prophets of evil" as those who persist in believing that all hope of a treaty is gone are called, predicted that today would witness the final rupture and that at most there will be only one meeting, not for a final effort to reach an accord, but to exchange the diplomatic amenities and bid each other farewell. This does not correctly represent the situation. Unless something entirely unforeseen on either side occurs today the final struggle will be postponed until Monday to give both sides time to hear the last words of their governments.

No matter what the written "full powers" of plenipotentiaries extraordinary may be, these modern days of the cable and the telegraph which keep envoys in instant communication with their home government, has made more or less of a fiction of the "full powers," which, in the olden days, were given to envoys charged by their governments with negotiating and settling international issues.

Diplomatic negotiations are now conducted by Emperor Nicholas government than by emissaries. Envoys propose and emperors decide. Both sets of plenipotentiaries are in continuous communication with their governments. According to each day's proceedings are telegraphed to Tokyo and St. Petersburg and messages are sent from both capitals.

tions work night and day preparing and deciphering messages.

Just before M. Witte left for the conference chamber this morning he received a long cipher cablegram. Perhaps it contained the answer to the important communication sent after last night's conference. It was too late to decipher it at the hotel and M. Witte thrust it into his portfolio and took it with him to the navy yard, where his secretaries could translate it.

Article 11 (the limitation upon Russia's naval power in the Far East) was pending when the plenipotentiaries re-assembled. The indications are that it will also go over without final action. That as well as article No. 12, relating to fishing rights on the Russian littoral, may be yielded by the Russians, but neither 10 (the interned warships) nor 11 or 12 presented insuperable difficulties. Everything now harks back to indemnity and Sakhalin. There, as from the first, will be the crux. If this can be adjusted, the remainder will be child's play.

It is difficult to fathom the Japan mind, but as stated in the Associated Press dispatch last night, there have been vague moves in the conference chamber which indicate that they are willing to consider the disputed points together "en bloc" and this is the basis of the main hope that they are ready to compromise.

The morning session of the peace conference ended at 12:30 p. m.

The envoys repaired to the lunch room immediately.

The official statement was issued as follows:

The morning session. The sitting of the session of the morning Aug. 18, continued the discussion of article 11 and the decision has not been finished. The discussion of the article will be resumed at 3 o'clock.

THREE NEGROES PAY THE DEATH PENALTY

All of Them Were Guilty of Murdering Women.

MEMPHIS HAS TRIPLE HANGING

The Crimes of the Men Had No Connection With Each Other—General Bone's Crime Was One of the Most Revolting in Criminal History.

Memphis, August 19.—Three negro murderers were hanged here this afternoon by Sheriff Monteverde and his deputies.

The crimes of these men have no connection with each other. The most brutal was that for which General Bone, a huge limbed negro, paid the death penalty. His murder of Mattie Mahen, the wife of another negro, was one of the most revolting crimes ever committed in Shelby county. He entered a cabin early on the morning of Jan. 1, last, killed the woman, and carried her body to Wolf river, where he tried to hide evidences of his crime by sinking the body in the stream. He was arrested and at first pleaded guilty, but upon advice of his counsel, changed the plea to not guilty. He was convicted after a short trial.

James Norfleet was executed for the murder of his wife on a train near Capeville, on the morning of July 31, 1904. The body of the woman was found in a cabin full of buckshot. Norfleet was brought to trial and convicted on strong circumstantial evidence.

On Dec. 17, 1904, John Champion committed the crime for which he paid the death penalty. He married his paramour, Irene Jones, in a resort in this city. The woman had left Champion. He followed her to the resort and without warning shot her dead. He also shot another negro who recovered. Champion escaped the law for a time, but was captured in Paducah, Ky., last January, and was convicted three weeks later.

Offered \$25,000 for Wife's Death.

London, August 19.—A great sensation has been created by the arrest of Hugh Watt, a financier and formerly a member of parliament for the un-lachable division of Glasgow, of the charge of attempting to procure a private detective to assist in the murder of his former wife. Detective Marshall testified in a police court today that Watt offered him \$25,000 if he would induce the woman to come to Watt's flat, where he proposed to kill her by the administration of chloroform, and then to remove the smell of the chloroform with peppermint. Watt was remanded for trial in jail of \$3,000. The police found both chloroform and peppermint in Watt's apartments.

Ready to Observe Eclipse

New York, August 19.—Professor Turner, of the British eclipse expedition to Assouan, telegraphed his preparations are well advanced and a Herald dispatch from Alexandria, Egypt. The American, British and Russian parties are now on the ground. The Egyptian government's assistance will be given and the antiquities department will allow the use of ground for delicate magnetic observations.

Killed Daughter and Himself.

Pueblo, Colo., August 19.—Frank Foster, foreman of the yard gang of the Pueblo Steel Works, has caused the death of his daughter Frances, aged 16, by forcing her to swallow a quantity of poison, and then committed suicide by using the same drug. Neighbors said Ward had been drinking heavily and had threatened to kill himself and the girl. Ward was a laborer.

Engineer Killed in Wreck.

Houston, Tex., August 19.—Passenger train No. 1, on the Houston and West Texas railroad, bound for Shreveport, was derailed between Goodrich and Livingston, Tex., today. Engineer Edgar Crane was killed and Fireman Ed Johnson. Several passengers were injured.

MRS. FISHER TELLS HER EXPERIENCE

In an Exciting Railroad Wreck
Near Macon Monday.

FOUR PEOPLE WERE KILLED

Mrs. Fisher and Daughter Were Aboard
a Passenger Train Which Collided
With a Freight Train With Serious
Results.

Mrs. H. A. Fisher and daughter, Miss
Susie, of North Gainesville, who left
Monday for a visit to Indiana, now re-
lapse how it feels to be mixed up in a
genuine railroad wreck, as that was
their experience on the Central Rail-
road near Macon Monday evening.

Mrs. Fisher and daughter were on
the passenger train which collided with
a freight, mention of which appeared
in the Associated Press reports, when
four persons were killed. The lady
writes of her experience to her hus-
band in this city as follows:

"We are alive and well, but were
considerably shaken up yesterday even-
ing. We reached Macon in safety and
changed cars, the train pulling out for
Atlanta in a few moments. Just as we
were starting out, going at a rate of
about fifteen miles an hour, a heavy
freight train ran into us.

"There was a terrible crash. You
have never been in a wreck, and have
no idea of the sensation accompanying
such. The engines were broken up,
and the baggage and mail cars tele-
scoped and were completely shattered
into fragments. I never saw such ex-
citement in my life as that which fol-
lowed, and it was not a great while
before fully a thousand people were on
the scene. We were not injured—
only well shaken up, so there was noth-
ing to do but look on. I saw the men
bring out one dead negro, and I was
told there were three or four more
under the wreckage, where men were
working with axes. One of the postal
clerks was badly injured, but I do not
think he died.

"Another engine came to our relief,
and the only two remaining cars which
were not injured were pulled back into
the union depot at Macon, when the
passengers were sent around via the
Southern."

This was indeed a narrow escape,
and an incident which Mrs. Fisher will
no doubt remember for the balance of
her life.

Public is Aroused.

The public is aroused to a knowledge
of the curative merits of that great
medicinal tonic, Electric Bitters, for
sick stomach, liver and kidneys. Mary
H. Walters of 546 St. Clair Ave., Col-
umbus, O., writes: "For several
months I was given up to die. I had
fever and ague, my nerves were wreck-
ed; I could not sleep, and my stomach
was so weak, from useless doctors'
drugs, that I could not eat. Soon after
beginning to take Electric Bitters, I
obtained relief, and in a short time I
was entirely cured." Guaranteed at
all drug stores; price 50c.

PLEASANT BIRTHDAY PARTY.

Miss Minnie Lee Entertains in Honor
of Her Birthday.

Melrose, August 18.—On Wednesday
night last, August 18th, there was a
party given at the residence of Mr. and
Mrs. W. H. Lee, by their charming
young daughter, Miss Minnie, in honor
of her seventeenth birthday. A table
set in one corner of the parlor filled
with presents gave good evidence as to
the popularity of this young lady. In
all present there were fifty-one. Cake
and ice cream were the refreshments
served and they were served to a
queen's taste.

The latest music, as well as games,
were played until the midnight hour
arrived, and then one and all bade her
good-night and many more happy birth-
days.

Mr. Brin Robinson, while loading
lumber on the steamer Alert last week,
slipped and fell, a piece of lumber fall-
ing on his arm, giving him a slight in-
jury. Friends are glad to know that he
has returned to his work. He is
pilot on the Alert, although he had tak-
en a hand in loading the lumber.

Cures Sciatica.

Rev. W. L. Riley, L. L. D., Cuba,
N. Y., writes: "After fifteen days
of excruciating pain from sciatic rheu-
matism, under various treatments, I
was told to try Ballard's Snow Lin-
iment. I did so, and the first application giving me
a little relief. The second entire relief.
I am now well. Price \$1.00. Sold by W. M.

MALARIA UNDERMINES THE HEALTH

When the germs of malaria enter the
blood the entire health is affected, and if
the blood is not purified of these germs
and microbes, Chronic Sores and Ulcers,
Liver Spots, Chills and Fever, Boils,
Aches and Pains, and a great variety of
troubles manifest themselves, and soon
the entire system is undermined, leaving
the sufferer a prey to a most miserable,
weak and nervous condition.

918 W. Market St., Louisville, Ky.

For several years I suffered with Chills
and Fever, caused by Malaria in my
system, and each summer for several
years I would have a relapse. Finally
my physician prescribed S. S. S. I took
a few bottles; this was about six
years ago. It entirely cured me, and
I have never been troubled since. I am
sure no other medicine could have given
me so complete and immediate relief,
and I cannot speak too highly of S. S. S.
My partner in business is now taking
S. S. S. for an eruption of the skin, and
a general run-down condition of the sys-
tem, and although he has taken but one
bottle, already commences to feel better.
I. SHAPOFF.

S. S. S. counteracts and drives all the
poison from the blood and builds up the
system by its fine purifying quali-
ties and tonic effects. It strengthens
every part, increases the appetite, helps
the stomach and digestion, and by sup-
plying the body with rich, pure blood,
cures Malaria and all its disagreeable ail-
ments. Unlike most blood medi-
cines S. S. S. is purely vegeta-
ble. It does not contain a particle of mineral
of any kind to disagreeably affect the stomach, diges-
tion and bowels, but by cleansing and
strengthening the blood, puts every part
of the body in healthy condition. Book
on the blood and any medical advice de-
sired without charge.

COTTON IN ALACHUA.

Only One Gin Running So Far—Fif-
teen Bales Turned Out.

The cotton season in Alachua has
been considerably delayed, owing to
the heavy and continued rains which
have caused a great deal of the open
staple to rot in the fields, as well as
the fact that cotton pickers have been
scarce.

There is only one gin in opera-
tion in Alachua now, being that of
Rives & Son, and this establishment
has only turned out fifteen bales,
where double the number should have
been the amount.

There are three ginneries in Alachua,
and at this season last year they were
all in operation, and comparatively
seventy-five bales of cotton were mar-
keted from these gins.

The planters throughout the county
are greatly discouraged. Thousands of
pounds of open cotton have rotted
in the fields, and that which could
have been gathered has been lost on
account of inability to secure pickers,
who are scarce at a dollar a hundred.
The negroes receive better salaries
from the naval stores and lumber man-
ufacturers, which naturally causes a
scarcity of cotton pickers. The most
of the work so far this season has been
done by women and children.

If this condition of affairs is not re-
lieved the farmers of Alachua county
are going to suffer this season.

Another Good Man Gone Wrong.

He neglected to take Foley's Kidney
Cure at the first signs of kidney
trouble, hoping it would wear away,
and he was soon a victim of Bright's
disease. There is danger in delay, but
if Foley's Kidney Cure is taken at once
the symptoms will disappear, the kid-
neys are strengthened and you are
soon sound and well. A. R. Bass of
Morgantown, Ind., had to get up ten
or twelve times in the night, and had
a severe backache and pains in the
kidneys, and was cured by Foley's Kid-
ney Cure. J. W. McCollum & Co.

Miss Jernigan Rewarded.

Little Miss Ruth Jernigan, daughter
of Mr. and Mrs. L. A. Jernigan, while
en route to Live Oak a few days ago
found on a seat of the railroad coach a
purse containing \$40 in cash, a bag-
gage check, and some valuable papers.
The name of the party was on the pa-
pers, but naturally the little lady was
at a loss for a way in which to find the
owner. When she reached Live Oak
she went to the hotel, where she as-
certained that the owner was regis-
tered there, and delivered to him the
lost book.

The owner was so gratified that he
insisted upon Miss Jernigan accepting
a five-dollar bill as her reward.

Peculiar Disappearance.

J. D. Runyan of Butlerville, O., laid
the peculiar disappearance of his pain-
ful symptoms of indigestion and bil-
iousness to Dr. King's New Life Pills.
He says: "They are a perfect remedy
for indigestion, sour stomach, headache,
constipation, etc." Guaranteed at all
drug stores; price 25c.

HAD A FINE MEETING.

Historical Meeting of Kirby Smith
Chapter Was Fine.

The historical meeting of Kirby
Smith Chapter, United Daughters of
the Confederacy, which was held at
the home of Mrs. H. H. McCreary
Thursday afternoon, was well attended,
and proved a most enjoyable affair.

The program was well selected and
admirably rendered, and those present
were deeply interested in the proceed-
ings.

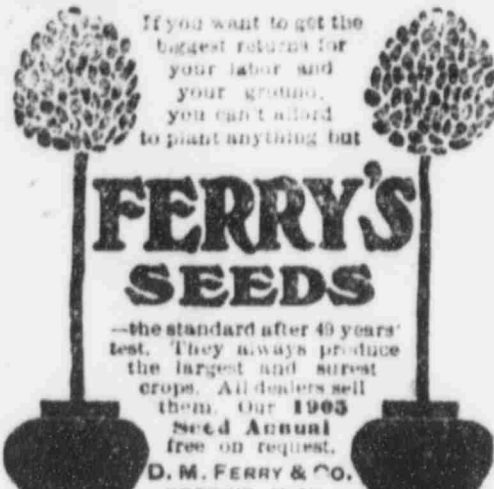

Mrs. E. G. Richardson of South
Carolina, recently arrived and almost
as recently married, was the honorary
guest of the chapter, and had the
pleasure of meeting a great many
ladies.

Delicious refreshments were served
during the evening, and altogether the
affair was a most delightful one.

Cured Hay Fever and Summer Cold.

A. J. Nushbaum, Batesville, Indi-
ana, writes: "Last year I suffered for
three months with a summer cold so
distressing that it interfered with my
business. I had many of the symp-
toms of hay fever, and a doctor's pre-
scription did not reach my case, and I
took several medicines which seemed
to only aggravate my case. Fortu-
nately I insisted upon having Foley's
Honey and Tar and it cured me. My
wife has since used Foley's Honey and
Tar with the same success." J. W. Mc-

JOHN LONG SHOT INTO ENGINE CAB

Was After Fireman West Davis.
Several Shots Took Effect.

HE WAS INJURED IN THE ARM

Davis Was Employed as Fireman on
Early Bird Train, and It is Said That
Former Trouble Prompted Action.
Long Arrested but Released.

John Long of Early Bird was arrested in Justice Chamblin's court at Archer a day or two ago upon a charge of the reckless handling of firearms, following the fact that West Davis, prosecuting witness, did not appear, the case was postponed and the defendant was released upon his own recognizance.

From the information received here it seems that Long, who does not bear the best character in the world, was in Archer a few days ago. He had had some difficulty with West Davis, a fireman on the Early Bird train between Archer and Early Bird, and just as the train was pulling out from Archer it is alleged that Long fired into the locomotive cab with a shot gun. Several shots took effect in Davis' arm, but the man was not seriously injured, and continued his run. He caused a warrant to be sworn out against Long, but failed to appear against him in court.

The people of Archer seem to be disappointed that Long was not dealt with to the extent of the law, as it is said he has caused trouble on various occasions. As a matter of course they feel that Justice Chamblin was powerless in the premises, the prosecutor having failed to put in his appearance, but it has been intimated that he was intimidated by Long, and did not appear for fear of being violently handled after the trial.

The carrying of concealed weapons and the reckless handling of firearms has become a common practice in many sections of the county, and the offenders should be prosecuted, as it is hazardous to life.

A Warning to Mothers.

Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the old-fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale by all druggists.

CURL BROUGHT PRISONER.

Mar Jumped Labor Contract in Taylor County and Was Arrested.

Deputy Sheriff F. S. Curl of Archer arrived in the city Thursday, having in custody John Clark, colored, who was wanted in Taylor county upon a charge of jumping a labor contract.

Clark was arrested at the still of Barber & Co., five miles west of Archer, upon instructions from the authorities of Taylor county. He is six feet four inches tall and the matter of identification was easy, since the description stated his size and added that the thumb of his left hand was missing.

Officer Curl worked upon the case until he was sure his man was employed at Barber's turpentine still, when he proceeded to the place and made the arrest.

The prisoner was placed in jail in the city and an officer is expected from Taylor county today.

A Worm Killer.

J. L. Montgomery, Puxico, Wayne county Mo., writes: "I have little boys who have been bothered with worms all their lives. I tried everything to relieve them, which failed until I used White's Cream Vermifuge. The first two doses brought four worms from one of them, the next two doses twelve, one of them measuring twelve inches; the other child was only bothered with four worms. It is an excellent medicine. White's Cream Vermifuge is good for children. It not only destroys worms—it helps the child to perfect growth, weak and sickly."—W. H. Johnson.

OUT UNDER BOND.

Emanuel Monteil, Arrested by United States Authorities, Now Free.

Emanuel Monteil, the Cuban who for several years conducted a small store and cigar factory at the corner of South University and East Depot streets, this city, and who was arrested a few weeks ago by instruction from the United States authorities upon a charge of manufacturing cigars without affixing the United States revenue tax stamp, has been released upon a bond of \$125 and will be a free man until the next session of the United States court.

Monteil is now in this city. He has accepted a position as traveling representative for N. Lopez, a cigar manufacturer of Ocala, and is working his line here. He states that he is enjoying a good trade, but is very much concerned about his predicament in the United States court.

When seen by a representative of The Sun Thursday Monteil was neatly dressed and presented a very good "front." He will no doubt do well with his new line.

"Me no know me do wrong make cigars and sell boys without stamp," remarked Monteil, in speaking of the offense of the law for which he is now held. "Me make fine cigar and sell two for five cents and three for five cents to boys (meaning people at home) and me no know me do wrong." Monteil will evidently have it impressed upon his mind that he did do wrong before the government will have finished with his case.

Herbine

Renders the bile more fluid and thus helps the blood to flow; it affords prompt relief from biliousness, indigestion, sick and nervous headaches, and over indulgence in food and drink. G. L. Caldwell, agent M. K. & T. R. R., Checotah, Ind. Ter., writes, April 18, 1903: "I was sick for over two years with enlargement of the liver and spleen. The doctors did me no good, and I had given up all hope of being cured, when my druggist advised me to use Herbine. It has made me sound and well." 50c. Sold by W. M. Johnson.

An Educated Mule.

It is seldom that we hear of an educated mule outside of the trained animal shows, and very seldom there, as it is said a mule is a hard proposition to train. But W. S. Dorsey can truthfully assert that he has a trained animal of this variety, and if the reader had been present early yesterday morning he could have proved his assertion. Mr. Dorsey has in his stable lot a pump from which he supplies water for the stock. He was attracted by a noise in the yard and upon investigation observed that the mule, becoming thirsty, had clinched the handle between his teeth and was working the pump. When a sufficient quantity of water had been pumped, his muleship drank to his heart's content, after which he lazily sauntered to a convenient corner and lay down.

Given Up to Die.

B. Spiegel, 124 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run-down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good, and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured."

WALDO NEWS.

An Interesting Bunch of Local and Personal Items.

Waldo, Aug. 17.—N. W. Gibson, an employe of the Seaboard Air Line, has returned from a trip to North and South Carolina.

A house supposed to be on a certain lot, has changed hands several times in the past twenty-five years, and is found to be centrally on the line, much to the dismay of the owner, Mr. Ross, as the adjoining lot is sold and the purchaser, Alf King, claims his purchase, and wants the house removed.

Rev. Thompson will hold services at the Baptist church next Sunday. This will be his first visit here.

The wells are full almost to the surface on account of the continued heavy rains.

Cotton is badly damaged and also other crops by the wet weather.

Rev. C. W. White, pastor of the Methodist church here, has been aiding the pastor, Rev. A. M. Daiger at Williston in a meeting, doing nearly all the preaching, with the result of over fifty conversions.

Charley Sparkman is supplying some of the fattest beef at his market seen here for a long time.

Horses, cattle, hogs and chickens sell at high prices.

Ed Renault has a severe attack of a bilious affection, but is better.

Mrs. Ed Renault returned last night from Portsmouth, Va., where she has been in attendance upon her daughter, Mrs. Flagg, who has had a protracted illness.

Conductor King has purchased the Park residence so long occupied by his mother, Mrs. King, and the Misses King, and adds another Mrs. King to the family, who was the charming daughter of Colonel White of Cedar Key.

A Sunday school convention of the A. M. E. Church held here was largely attended by delegates and home people. Presiding Elder Hawkins presided.

A. G. Masters is at home for a few days from Willeford, where he is connected with a mercantile business.

Professor Coffee, with his corps of assistants, will open the public school on September 11.

A Touching Story

Is the saving from death of the baby girl of Geo. A. Eyler, Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious throat trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for consumption, coughs and colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At all drug stores, 50c and \$1; guaranteed. Trial bottle free.

W. C. T. U. RECEPTION.

Function Friday Evening Was Well Attended and Enjoyed.

The ladies of the Woman's Christian Temperance Union tendered a reception at the girls' dormitory of East Florida Seminary Friday evening complimentary to the faculty and students of the University Normal.

There was a good crowd present and the evening was enjoyed by all. The program, comprising vocal and instrumental music, recitations, etc., was carried out in a perfect manner and the guests are under obligations to the Union for an evening's enjoyment.

They Appeal to Our Sympathies.

The bilious and dyspeptic are constant sufferers and appeal to our sympathies. There is not one of them, however, who may not be brought back to health and happiness by the use of Chamberlain's Stomach and Liver Tablets. These tablets invigorate the stomach and liver and strengthen the digestion. They also regulate the bowels. For sale by all druggists.

ORINO Laxative Fruit Syrup

Pleasant to take

The new laxative. Does not gripe or nauseate. Cures stomach and liver troubles and chronic constipation by restoring the natural action of the stomach, liver and bowels.

Gainesville is not seriously affected
 with "knockers."

It is reported that Grover Cleveland
 is a poor man. He doesn't look it.

Secretary of Agriculture Wilson is
 70 years old and he should retire from
 the farm.

Dengue fever is all the rage at Tam-
 pa, and Dr. Porter says it may spread
 over the State.

Nan Patterson now declares she is
 going to get married, retire from the
 stage and settle down. Exit Nan, quick
 curtain.

There will have to be a lot of ditch-
 ing done about the State of Florida to
 drain the Everglades for agricultural
 purposes.

Havana is having her inning now in
 regard to the quarantine matter, and
 in spite of the appeals from Dr. Porter
 and others, will not lift it until New
 York does.

The Tampa fair people are still look-
 ing for a name for the midway. Some-
 one has suggested an Indian name, al-
 though it would be just as romantic to
 have the name extracted from the peo-
 ple in plain English.

The next Chautauqua, to be held in
 this city next winter, will be the best
 ever held in Florida. Dr. Strouse has
 been watching for talent during his
 travels this summer, and he has been
 very successful in booking some of the
 best.

The State College for Women at Tal-
 lahassie is being brought before the
 people of the State by a thorough can-
 vass of the different localities. There
 is no denying the fact that this college
 will surpass all previous efforts at any
 college of its class in Florida, and the
 president and faculty are determined
 to make it a winner.

There seems to be a year of epidem-
 ics. The yellow fever is raging at
 New Orleans; typhoid fever is creat-
 ing great havoc at Washington, D.
 C. and at Lunenburg, Nova Scotia,
 they are having a severe time with
 cerebro spinal meningitis. In the lat-
 ter place the summer tourists have
 left the town through fear and there is
 a depression in business that will be
 deeply felt.

There are 175 cities in the United
 States each having a population of
 over 10,000 whose aggregate financial
 transactions equal in magnitude those
 of the National Government. The
 total corporate receipts for these cit-
 ies amounted to \$541,624,233, while the
 revenues of the United States Govern-
 ment in the fiscal year 1904, exclusive
 of postal revenues, were \$540,631,749.

The Jacksonville carnival will be held
 September 15th to 18th. The Florida
 Mid-Winter Fair at Tampa opens on
 September 15th. New Jacksonville
 wants Tampa to push her date along
 and not to conflict with the carnival,
 and there is naturally a large amount
 of indignation floating in the air at
 Tampa. To think that Jacksonville
 would "butt in" on her dates, when
 the Tampa show is "the official" ex-
 hibition of the State of Florida.

CROP MONEY.

Although The Wall Street Journal
 stated a few days ago that the banks
 in the West had sufficient money to
 move the crops, it now states that "the
 movement of currency from New York
 to the West to facilitate the harvesting
 of the crops has begun. It is a signifi-
 cant fact that the first transfer is made
 ten days earlier than was the case last
 year. Undoubtedly the West is richer
 than ever before in its history and with
 bountiful crops there is a certainty of
 a most prosperous year. But this fact
 is no guarantee that the West will not
 be obliged to call, as it has in the past,
 upon the East for currency to move its
 crops.

"So far as the actual shipment of
 money is concerned, it makes little
 difference whether the currency sent
 West represents Western deposits
 withdrawn from Eastern institutions
 or Western loans called from Eastern
 borrowers or the proceeds of loans
 made by Eastern bankers to Western
 producers. The money in each case
 goes from New York to various points
 in the West and this involves a reduc-
 tion in cash reserves here.

"All this is very elementary, of
 course, but it seems necessary to make
 this explanation every now and then
 because of the frequent statement that
 the West is becoming so rich that it
 can finance the movement of its own
 crops. In a certain sense it is alto-
 gether true. The West has become a
 powerful factor in the money market
 of New York by reason of its reserves
 on deposit here and by reason also of
 its direct loans to New York brokers
 upon stock collateral. Unquestionably
 it needs to borrow much less money
 from Eastern capitalists to move the
 crops than in former years. What it
 needs to do now is simply to withdraw
 its Eastern deposits and call in its
 Eastern loans. But this operation in-
 volves precisely the same transfer of
 currency from the East to the West as
 if the money thus transferred repre-
 sented loans made instead of credit
 withdrawn.

"The condition of the cash reserves
 of the Western banks as revealed by
 the last reports to the comptroller of
 the currency does not give promise of
 any ability on the part of the West to
 move its crops without the necessity of
 the usual call upon New York for cur-
 rency. As the crops are in the aggre-
 gate greater in quantity and value than
 ever before, it would be reasonable to
 believe that the demands for currency
 will be correspondingly large."

STANDING TOGETHER.

Gainesville has given the State a
 lesson in unity that should not go un-
 heeded by other communities. To se-
 cure the location of the University of
 Florida it was necessary that \$40,000
 should be offered in cash as a bonus.
 A few of the leading citizens of the
 town put up the money and it was de-
 livered into the hands of the Board of
 Control. These citizens had no secu-
 rity other than confidence in the in-
 tegrity and fairness of the citizens of
 the town, whom they depended upon
 to vote a bond issue and thus reim-
 burse them. The bond election came
 last week, and out of 266 votes polled
 only three were against the bond issue.
 That's what we call standing together,
 and the spirit exemplified by this vote
 will keep Gainesville on the up-grade.
 A community so honest and fair and
 united in matters of public interest is
 bound to grow and prosper. It is a
 showing that even the three fellows
 who voted against the bond issue
 should feel proud of.—Starke Tele-
 graph.

IN SYMPATHY.

The Lake Butler Star, in paying a
 fitting tribute to The Gainesville Star,
 that dropped out of sight without say-
 ing adieu, after stating that "they
 gave the people more than they could
 get the people to give them," has the
 following to say in regard to The Sun:
 "The Gainesville Sun, one of the best
 daily papers in the State, thoroughly
 covers the field in that section, and
 The Sun now shines upon the graves of
 at least a dozen newspaper efforts in
 that city."
 The Sun appreciates the compli-
 ments of its Lake Butler neighbor, and
 also the many kind words in the past
 from the same source. Few people
 realize the expense of running a daily
 paper, no matter how small it may be,
 but it can be readily seen by a glance
 at the tombstones in the cartoon in
 The Sun this morning, that the roses
 come after it is too late.

Gainesville is growing so rapidly in
 the residence portion, that it keeps a
 person pretty busy who undertakes to
 keep up on the new houses being built.

THE EXTENT OF THE LAW.

Hats off to Judge Shaylor of the Du-
 val criminal court. In sentencing
 James Wall on Wednesday at Jack-
 sonville he went the limit—twenty
 years at hard labor in the State con-
 vict camps. Wall shot Policeman
 Tucker when under arrest. If such
 chaps could only get the extent of the
 law more often, and the Pardoning
 Board barred, there would be less of
 that kind of work, for we would have
 the assurance that those who were
 sentenced would not be pardoned out
 in two or three years, and it might
 cause others to think before they laid
 themselves liable to a similar judg-
 ment.

Every man who approves of the en-
 forcement of the law—and he is not of
 much account who does not—will be
 pleased to know that we have such
 men as Judge Shaylor as an antagonist
 of evil-doers. We tip our chapeau to
 his honor.

TO OUR SHERIFF.

Sheriff Fennell of Alachua county is
 not one of those officials who waits for
 grand juries to investigate the blind
 tiger business, but he acts promptly
 on his own sense of official responsi-
 bility by invading the jungles and cor-
 raling them in their lairs whenever he
 suspects there is one of these apin-
 als in his domain. Friday he
 swooped down on several of these dens
 of iniquity in Newberry, information
 of an indirect nature being given him
 about some of them, and his labors
 were rewarded by capturing a large
 supply of "tamarac" juice and the ar-
 rest of the gentry dealing in the out-
 lawed fluid. All honor to this ener-
 getic Alachua sheriff!—Jasper News.

OBSOLETE.

Although the summer months in the
 South are looked upon by many people
 from a distance as exceedingly dull,
 within the past thirty days there has
 been considerable business activity in
 the State of Florida. Besides the
 many private enterprises in nearly
 every city of the State, the incorpora-
 tion of several concerns with capital
 stock ranging from \$10,000 to \$300,000
 are recorded. There is plenty of work
 for all who are seeking to earn an hon-
 est living, and the old saying that the
 people of Florida "skin alligators in
 the summer and Northerners in the
 winter for a livelihood," have to be
 passed into innocuous desuetude.

We have received the annual an-
 nouncement of the Florida Female
 College at Tallahassee, for 1905-6.
 This institution of learning, of which
 mention was made a few days
 ago, is bound to make rapid advance-
 ment under the direction of the dis-
 tinguished president, Albert A. Mur-
 phree, who is recognized as one of the
 most brilliant educators of the South.
 Surrounded by a faculty selected for
 their fitness in the respective branches
 to which they have been carefully as-
 signed, we feel safe in asserting that
 the confidence reposed in them will
 not be in vain. The best results may
 surely be realized.

A glance at the array of teachers
 from various portions of Florida, in
 attendance at the reception given the
 Normal students at the girls' dormi-
 tory on Friday evening, by the W. C.
 T. U., would convince anyone that no
 State has a more comely and intelli-
 gent looking array of ladies and gen-
 tlemen. They certainly showed they
 were ready conversationalists, as all
 proved themselves able to talk on var-
 ious topics, and at times it seemed
 they could all talk at the same time
 with apparent ease.

There is a difference in opinion
 among instructors regarding the train-
 ing of children these days. Professor
 Mathews of the Chicago University,
 says Mr. Bryan's Commoner, belittles
 home training and says that morality
 should be taught in the schools like
 algebra. Morality should be taught
 everywhere, but the best teaching is
 by example and the subsidized pro-
 fessors who applaud the criminal
 methods of the trust magnates are not
 setting a very good example.

A man who has had an eye on Flor-
 ida weather for upwards of twenty-five
 years, says we are getting back to the
 old rainy season again. He is evi-
 dently a trifle off, for we have got there.

Bradentown is shipping cattle to
 Cuba. The Queen of the Antilles de-
 pends on Florida for her beef.

The Emperor of Austria celebrated
 his 70th birthday today. He has the
 universal love of his people.

IS BUILDING SIDINGS.

Chas. W. Wells Has Good Contract
 With Atlantic Coast Line.

Chas. W. Wells of Alachua was in the
 city Friday, having been summoned
 here on business.

Mr. Wells has been engaged in rail-
 road contracting for the past few
 months, during which time he has con-
 structed several miles of sidings and
 spurs for the Atlantic Coast Line. It
 was under his supervision that the
 "Y" connecting the Atlantic Coast
 Line track with the line of the Jack-
 sonville and Southwestern at Alachua
 was constructed, which will mean
 within the next few weeks a good
 thing for Gainesville, as through
 trains will be operated between St.
 Petersburg and Jacksonville via this
 city, which was made possible by the
 completion of this "Y".

Mr. Wells states that he has just
 completed the siding at Cadillac, which
 covers 1,800 feet. The peach and
 melon industry has become so heavy
 at this point that this track will be
 necessary another season to accommo-
 date the cars. He has also completed
 at Haynesworth a siding 800 feet long,
 which will greatly facilitate the hand-
 ling of shipments from that point.

If Booker Washington had only been
 in Gainesville three years ago and
 heard the address delivered at the
 Bethel A. M. E. Church by the Na-
 tional Secretary of the Colored Ed-
 ucational Association of the United
 States, he might have heard a very
 good point made in regard to the white
 people making monkeys of the colored
 folks. Mr. Wannemaker does not care
 any more, nor as much, for the col-
 ored race than lots of other people;
 but he just wanted to show what he
 dare do in defiance of what people
 would say, when he had Rev. Wash-
 ington escort his daughter to dinner at
 the United States Hotel in Saratoga,
 and then heaved a sigh of regret to
 think that he had no Miss Dinah there
 to lean on his own arm. But he is
 lacking in judgment if he has the opin-
 ion that he helped the cause of his
 friend Booker in the least.

LIFE IN JAVA

The Natives Are Grave and Live and Eat in Public.

The Javans live much in public, the poorer classes, instead of eating their meals at home, as is the manner of the unsociable Hindoos, usually to breakfast and dine at one of the itinerant cookshops to be found at every street corner. More excited people may be seen buying the packets of curry and rice wrapped in fresh plantain leaves and pinned with bamboo splinters, which are intended for home consumption.

To stroll down a village street and watch the culinary operations in progress at wayside eating shops was an unfailing source of amusement, and very clean and appetizing they look though the smell was occasionally somewhat trying to the European nose. The Javans, like all rice eating people, are fond of pungent and exciting sauces, and equivalents of the British man gnappe and Japanese bean paste are in constant requisition.

The natives, and especially the children, look fat and healthy and appear to enjoy life under easy conditions though they are, generally speaking, grave demeanor and are not endowed with the unfalling vivacity which distinguishes the Burmans and Japanese. During the six weeks that we spent on the island we did not see half a dozen beggars and, except in cities, certainly not that number of policemen—Perron's.

THE VEILED PROPHET.

**He Was the Most Noted Impostor
the Middle Ages.**

The celebrated "veiled prophet" history was a Moslem fanatic who real name was Haken Ibn Hashe. He was born about the middle of the eight century and became the noted impostor of the middle ages. He pretended that he was an embodiment of the spirit of the "living God" and being very proficient in jugglery while the ignorant mistook for the power work miracles), soon drew an immense number of followers around him. He always wore a gold mask, claiming that he did so to protect the mortals this earth, who, he said, could not look upon his face and live.

At last, after thousands had quit the city and even left the emperor, the Caliph al Mohdi to join the fanatical movement, an army was sent against the "rebel prophet," forcing him to flee for safety to the eastward, to Keh, north of the Oxus. Finally, when ultimate defeat was certain, the prophet killed and burned his whole family and then threw himself into the flames, being entirely consumed except his hair, which was kept in a museum at Bagdad until the time of the Russian invasions. He promised his faithful followers that he would reappear to them in the future dressed in white and riding a white horse.

FABLE OF THE PANSY.

**The Family of Six That Is Contained
In the Flower.**

A pretty fable about the pansy is current among French and German children. The flower has five petals and five sepals. In most pansies, especially of the earlier and less highly developed varieties, two of the petals are plain in color and three are gay. The two plain petals have a single sepal each, and the two of the gay petals have a sepal each, and the third, which is the largest of all, has two sepals.

The fable is that the pansy represents a family consisting of husband and wife and four daughters, two of the latter being stepchildren of the wife. The plain petals are the stepdaughters with only one chair; the two small gay petals are the daughters with a chair each, and the large, gay petal is the wife, with two chairs.

To find the father one must strip away the petals until the stamens and pistils are bare. They have a fantastic resemblance to an old man with a flannel wrap about his neck, his shoulders upraised and his feet in a bathtub. The story is probably of French origin, because the French at the moment unnav the steamship.

Sunlight and Eyesight

Sunlight as distinct from the light of benefit to human eyes. It is refracted from white cliffs or sand or by other means. It does not cause any impairment of vision. It is the natural provision of the sense of sight and is in harmony with the natural period for work and pleasure—that is the day. So soon as we introduce artificial light we deal with which needs caution. A dim light injures vision because the eye adapts its shape to receive the feeble rays. On the other hand, a strong artificial light will produce inflammation of the eye surface and worse.

The Hat They Wore

"There's a lot of you fine folks," said an old negro preacher in Excelsior Springs one Sunday. "comes to church an' sees every last de congregation—every hat but and dat one de Lord passes right dat yuh know de Lord in his church."

FAIR ASSOCIATION DOWN TO BUSINESS

Every Member of the Association
Working for the County.

WILL HAVE A FINE EXHIBIT

Fair Commissioners Are Already at
Work and Determined to Show the
World What Alachua County is Cap-
able of Producing.

The Alachua County Fair Association, which was organized a few days ago as an adjunct to the Florida Mid-Winter State Fair Association, is now making excellent progress, with the indication that Alachua county will have at the State Fair, which is to be held in Tampa from November 15th to 30th, an exhibit which will be second to none and which may capture the big \$2,000 prize for the best general county exhibit. There will be six prizes for county exhibits, ranging from \$2,000 down to \$100, but Alachua county is after the first prize and is determined to capture it if hard work and a good display will get it.

Mention of the organization of the Alachua County Association has already been made. At this meeting a great deal of enthusiasm was manifested by the numerous business and professional men present and a full complement of officers were elected which will insure the success of the undertaking. The meeting was characterized for its enthusiasm and those present made assurances that the farmer and trucker would lend every aid towards making the association and the exhibit a success. It is from the farmer and trucker and horticulturist largely that the county must depend, although there will be exhibits of the mining and manufacturing interests of the county. Taken altogether, no county in Florida, or in the South, can produce a more diversified or better variety, and Alachua county will show up well at the Fair.

The board of directors of the Alachua County Fair Association, which was selected at the meeting of the association upon its organization, convened in the office of Secretary W. W. Colson and appointed the Fair commissioners, who were notified, and many of them have already written of their interest in the matter and have gone to work. These commissioners, all of whom are gentlemen of influence in their respective communities, are determined not to be outdone, with the result that the Alachua county exhibit at the Fair will come first, not only from an alphabetical standpoint, but in point of merit.

Major Tench's Letter.

Major J. W. Tench, who has been appointed by the board of directors as collector and manager of the exhibits, has addressed an interesting circular letter to the people of Alachua county, which is as follows:

"To the Progressive Citizens of Alachua County:

"Having been appointed by the directors of the Alachua County Fair Association as collector and manager of the county exhibit at the Florida Mid-Winter Exposition, to be held at Tampa beginning on the 15th of November and ending on the 30th of November, 1905, I take this method, for the present, of calling your attention to the many advantages to be derived from these annual fairs, alike to the State, counties and individuals thereof. Later, in ten days, perhaps, I will try and see every farmer and housewife in the county personally, and talk the matter over in extenso.

"The directors, commissioners and officers of the Alachua County Fair Association are all men of affairs and have the confidence of the entire citizenship of the county, and it is their intention to bring back the \$2,000 premium offered for the best county exhibit; and if the commissioners will aid me as I hope they will, by using their unceasing efforts to induce the people to send the best of everything produced on the farms or wrought by the nimble hands of the household, we will succeed. I cannot tell on this sheet all that is wanted for exhibition, but will send or bring you printed list within the next two weeks. Suffice it to say here that nothing should be overlooked. What would not perhaps interest the sender very much, would be very interesting to many visitors to the Exposition. Don't go to the Fair and say I could have sent better specimens of this or that—but send what you have, and if it is superior to others, then so much the better for you, the county and the State.

Remember that everything is wanted.

Major Tench has already received
several replies promising every sup-
port, and it is reasonable to believe
that old Alachua will be there "with
the goods" when the time arrives.

Country People Interested.

A number of the most prominent
planters, and fruit and truck growers,
in the county are becoming interested
in the State Fair, and many of them
promise to exercise an extra effort to
raise something nice for the occasion.
As Major Tench says in his circular,
anything from a peanut to a thorough-
bred horse is acceptable, so long as it
is good.

It has been decided that we are en-
titled to permit the casting of 200 votes
in the free library contest for each
yearly subscription paid for prior to
October 15th, 1905. Subscribers who
have paid for the paper since June 14th
are entitled to vote. Coupons can be
obtained at this office.

The Twice-a-Week Sun being en-
titled to permit the casting of 200 votes
in the free library contest for each
yearly subscription paid for, the ladies
of Kirby Smith Chapter, U. D. C., take this method of notifi-
cating those who pay their subscriptions
prior to 7 o'clock p. m. of October 14th,
1905, or who have paid since June 14th,
1905, that the Chapter will greatly ap-
preciate their support. Should the
Chapter win the library the reference
books will be given to the Gainesville
High School, where they are badly
needed, and the others to the Hospital
Association. Simply write the editor
of The Sun to permit Mrs. J. F. Mc-
Kinstry, Jr., to cast your vote, and the
ladies will greatly appreciate same.

Gainesville is feeling like a young
giant in the exercise of his strength.
She recently offered to let the Board
of Control have \$100,000 to be used for
the erection of school buildings. Car-

ing any better than our sister city.—

TEACHERS ENTERTAINED.

A Delightful Evening With the W. C. T.
U. at the Dormitory.

There was a very jolly and large at-
tendance at the reception held in the
girls' dormitory on Friday night by the
ladies of the W. C. T. U. in honor of
the teachers in attendance at the State
Normal School, and of the large num-
ber taking the course nearly all en-
joyed this social event. The rooms
were tastefully decorated with plants
and cut flowers, and across the arch
that separates the parlors was the mot-
to of the Union: "For God and Home
and Native Land."

Owing to the rain the people were
late in arriving, but when the Rev. T.
J. Nixon called to order the rooms
were comfortably filled with faculty,
teachers and friends, and the sweet
strains of music by the Mandolin Club
could hardly quiet the hum of voices.
After another very pleasing num-
ber by the Club, a vocal solo, "A
Mother's Prayer," was rendered by
Prof. J. E. Smith, which was a very
touching selection. Miss Mary Baird
followed with a recitation, "Courage
With Wine," in which she proved her-
self a very entertaining and painstak-
ing reader. She received many com-
pliments from her admiring friends.

After a selection by the Mandolin
Club, Miss Longmire gave a humorous
reading relating the trials of an "In-
ventor's Wife." Her selection cap-
tured the entire audience and she was
heartily encored.

Prof. J. E. Smith, in his rendering of
"The Pensive Old Piano," made a de-
cided hit, and those who have listened
to the progress of the "new beginner"
as she begins with one-and-two-and,
etc., until she reaches the "Java
March," would appreciate the effort.

Prof. Tom McBeath was next on the
program with a paper on "Temper-
ance," in which he gave his views in
a clear and concise manner. He told
the teachers of the work that had
been turned over to them in recent
years through the efforts of the mothers
to manage the affairs of State instead
of inculcating morals into the minds
of their children at home. His paper
was well prepared and gave his
views on the temperance question
in a very emphatic manner, although
they were in conflict with what has
been often said by others on the sub-
ject.

Miss Mary Cushman, one of the
teachers at the Normal, in her recita-
tion of "The Vagabond," displayed
well developed talent in that line,
her rendering demonstrating much
dramatic fire and good conception of
the character portrayed. She re-
sponded to an encore.

Another solo by Prof. Smith, "Only
a Drunkard," was received with ap-
preciation, the last number on the pro-
gram being a recitation by Miss Julia
Wainwright, entitled "Poor Farm
Nan." She gave the selection with
much spirit and with credit to herself.

At the conclusion of the exercises
the large company partook of the
"fruits" served by the young ladies in
the next room, and in this part of the
program the Misses Myra McMillan,
Janie Taylor, Mary and Nellie Da-
Costa won the favor of the entire
audience.

The promoters are to be congrat-
ulated on their success in furnishing
so pleasant an evening's entertain-
ment, and for their efforts to make all
feel at their ease and enjoy a social
time.

White Springs is becoming famous
as a resort, and the arrivals each week
are from all sections of the country.
But this week there has been a larger
and more noted number than usual,
and one evening, while St. Peter was
asleep, a little one came through the
heavenly gates and is now blessing the
home of Editor Smith of The Herald.

Miami has a baseball team and the
boys thought they could scrap anything
on the East Coast. They got as far as
West Palm Beach, where they were
combed to a finish in the first game,
the score being three to one. The
Beach boys were loaded for the visit-
ors and knew they could do the trick
from the start.

The champion tarpon of the season
was captured last Monday by Messrs.
Louis and Frank Depew near Tucker's
cove. It tipped the scales at 123 pounds
and furnished all the sport the fisher-
men were looking for.—St. Lucie Tri-

through whose liberality these books
libraries are furnished, on which
be written the amount of the purchase
and the number of votes. The
chaser will write on the ticket the
institution or organization for which
or she desires to vote, sign their name
and deposit the ticket in the box in the
store in which the purchase is made.

The standing of the contestants
be published exclusively in each
day's issue of The Sun until Octo-
ber 14th, 1905, at 7 o'clock p. m., when
remaining votes will be counted, and
the magnificent library awarded to the
organization having the largest num-
ber of votes. The Sun will publish
each issue a coupon which will en-
title the holder to two votes that will
be credited to the institution that is
ten on space provided for same and
delivered to the ballot boxes in each
of the stores.

PITIABLE IMPROVIDENCE.

The Way Money Is Wasted Through Ignorance of Food Values.

Examples of glaring ignorance of food values may well be culled from the notes of those experts who have visited the poor of the different cities. In the slums of Chicago it was found that a woman whose husband was out of work and whose family was living on a few cents a day bought lettuce, a food so innutritious that, at least when out of season and high in price, it is a luxury even for the rich. This woman sacrificed the inexpensive but nutritious classes of foods for leaves containing over 80 per cent of water and 15 per cent of refuse. It has been truthfully said that a man would starve to death on a diet of lettuce alone.

Pitiable improvidence was found in the New York slums. A watchman was feeding his family at the rate of 14 cents per person a day—all that he could afford—yet his wife bought expensive cuts of beef instead of the equally nutritious cuts of lower price; also large quantities of butter whose value might have been invested in dried beans and more bread. She also wasted money on soda crackers and jumbles costing two or three times as much as bread and containing no more nutrition. It was estimated that his wife might have obtained about eight times as much nutrition for her money had she substituted dried peas for green peas. Another large saving would have been the substitution of fresh for condensed milk. John E. Watkins in Reader Magazine.

THEY WERE GLUTTONS.

**The Gormands of the Eighteenth
Century in England.**

Plenty was the watchword of the eighteenth century gormand in England. His tables groaned under an array of food warranted to take away the appetite of all save the Gargantuan of the day. One blessing evolved from the old sops and the later bisques and olistoup, which now was ever the prelude to the dinner. It was removed for meat or fish—a chine of mutton and three ducks in the case of Squire Hill at Teddington, who, for entrees to support them, offered parrets with eggs, fillet of beef and scollops, turkey en daube, stewed carp, veal a la royale, fricasseed chicken, with ham and pigeons for center dish. This was but the first course or relay. Next came the roasts—two pheasants and four partridges and six teal, and now, for side dishes, sweet breads and marrow, four woodcock and ten snipe, salmon and snellts, marrow pudding, fore quarter of lamb and oyster loaves. For center dish, mince pies. And men ate and survived, and still had heart within them to wait the removal of the cloth, and, greeting the dessert, sat over the mahogany until indeed they fell beneath it. After all, gormand is not the name for such as these. They were gluttons.

Stevenson's Love Toast.

A beautiful testimony to one's home loves was paid by Robert Louis Stevenson at a thanksgiving dinner in Samoa.

"There, on my right," said Stevenson, replying to an unexpected proposal of "The Host," "sits she who has but lately from our own loved native land come back to me—she whom, with no lessening of affection to those others to whom I cling, I love better than all the world besides—my mother. From the opposite end of the table, my wife, who has been all in all to me when the days were very dark, looks tonight into my eyes—while we have both grown a bit older—with undiminished and undiminishable affection."

Which Won the Prize?

Three students of the Ecole des Beaux Arts, Marseilles, were talking in a cafe. "My dear fellow," said one, "I painted the other day a little piece of pine wood in imitation of marble so perfectly that it sank to the bottom of the water."

"Pooh," said another. "Yesterday I suspended my thermometer from the vessel that holds my 'View of the Polar Regions.' It fell at once to 20 below zero."

"That's nothing," said the last. "My portrait of the marquis is so lifelike that it has to be shaved twice a week."

Now Files Walk on Window Pages.

The microscope reveals the most contrivance which enables a fly to walk up a window pane or defy the laws of gravity by gibbling along, back downward, on the ceiling. The magnifier shows the foot to be made up of two pads covered with fine, short hair, each pad having a hook above it. Behind each pad is a bag filled with a sticky liquid which oozes out whenever the fly puts his foot down. The amount which is pressed out of each foot is very small indeed, but, taken all together, it is amply sufficient to hold the insect in any position he chooses.

Yellow fever is making it very live-ly in the people of Tampa.

Jacksonville will make a \$30,000 im-vestment in her electric lighting

F. Britton is appointed to fill Z. Hardick's unexpired term as post-ward at Seabreeze.

Warrants were issued at Mi-ami for day for vagrants. Most of them were black men.

Plans for Tampa's new Central hotel building are now completed. It will be of brick and stone and cost \$100,000.

Cost \$10,000 to take the Ward Line steamer off Triumph reef below Miami. There were ten boats in the deal. The work was quick done.

Half-a-dozen of the hotels at Augustine have been enlarged the summer. Still there is room for accommodations.

S. Odom, the young man from Key Creek who cut quite a figure in Tampa during the yellow fever epidemic, is now a free man.

An Orlando lady attempted to blow out the light of an oil stove, when it exploded. No damage, only there is a moral: Don't blow out oil stoves.

Two dusky females were brought into court at Bronson Monday. Mamie Charlotte Powell and Gertrude Bacon, each fined \$5 and costs each for using "bad" words.

The case of Owen Loadholtz and Jim Freeman will come up in the criminal court in Jacksonville Semtember 7th. Loadholtz is the man who shot Miss Brown in the court room.

The forest fire in the vicinity of Canaveral, Brevard county, last month, has been fierce. A man passing along there after the fire counted carcasses of seventeen deer which had been burned to death.

The county commissioners of Columbia county have called a good roads convention to meet in Lake City September 7th. Delegates are to be elected from every precinct in the county, and it is expected that some definite action will be taken.

T. B. Passmore got drunk on Wednesday night at Plant City, and Police-eman Egan tried to arrest him. Passmore shot Egan twice, when the latter pulled his revolver and shot Passmore a number of times, killing him. The officer is seriously wounded.

Arthur Jenkins, colored, was tried Monday before Judge Friedman on a charge of carrying concealed weapons, plead guilty and was sentenced to pay a fine of \$100 and costs, and in default thereof be confined in the county jail four months. He did not pay the fine.

Assistant State Auditor Edward A. Crawford died suddenly at his home in Tallahassee Tuesday of heart failure. He had returned from an official trip to Little Rock and was sitting in a chair reading a paper when he complained feeling bad, expiring before a physician could arrive. He was a native of Maine and 61 years old.

Sam Hardard, the census taker of the county, informed a newspaper that the name of the oldest man in Marion county is Marion Hardard, who is 112 years of age, has been a resident of Fish Pond, now known as before the Civil War. He was born in South Carolina in July, 1843. He is now 112 years old and is wonderfully healthy. He has about five generations living around him. The record is kept by the date of his birth.

Nothing on the Market Equal to Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This little well known remedy is very effective, and nine out of ten will cure their customers this preparation is the best asked for. Mr. Oberlin, a prominent druggist of Jacksonville, is a circular to his customers, saying: "There is nothing on the market the way of patent medicine that cures Chamberlain's Colic, Cholera and Diarrhoea Remedy for all complaints. We sell and recommend this preparation." For sale by druggists.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a Home of Swamp-Root pamphlet telling all about Swamp-Root, including many of the thousands of testimonials received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Red Men to Meet at Nashville.

Nashville, Tenn., Aug. 18.—It is officially announced that the annual national meeting of the Order of Red Men will be held in Nashville, on Sept. 11-17 unless yellow fever appears in this city. Reports had gone out that because of yellow fever in the south the meeting would be held in some other city. Nashville is considered immune from the disease, there never having been a case originating here.

How to Avoid Appendicitis.

Most victims of appendicitis are those who are habitually constipated. Orino Laxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels. Orino Laxative Fruit Syrup does not nauseate or grip and is mild and pleasant to take. Refuse substitutes. J. W. McCullom & Co.

Transfer Clerk Pockets \$20,000.

Chicago, Aug. 18.—Walter P. Craft, the transfer clerk of the Equitable Trust company, is missing and it is said by the officials of the company that he has taken about \$20,000 of the company's money. It is asserted that the trust company will lose nothing as brokers through whom stock was sold by Craft, will be forced to refund to the company the values of the shares taken by Craft, and sold to them. The police are looking for Craft, but have no clew to his whereabouts at the present time.

Rheumatism.

When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, proprietor Sullivan House, El Reno, O. T., writes, June 8, 1902: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c, 50c and \$1. Sold by W. M. Johnson.

Strike Likely to Spread.

New York, August 18.—In accordance with the orders of the general executive board of the International Association of Structural Iron Workers for a national strike against the American Bridge company, several strikes were called yesterday on the company's contracts in this city. Secretary Green, of the local union, declared that the strike will continue to spread all over the country until a settlement is reached.

Fiendish Suffering

Is often caused by sores, ulcers and cancers, that eat away your skin. Wm. Bedell of Flat Rock, Mich., says: "I have used Backlen's Arnica Salve for ulcers, sores and cancers. It is the best healing dressing I ever found." Soothes and heals cuts, burns and scalds. 25c at all drug stores; guaranteed.

Poison In War.

When the French beat the Formosans along the coast in 1881 the latter retired to the interior. When the French pursued them they found a queer line of defense, beyond which they could make no progress and in storming which many died. The Formosans had poisoned the springs, water courses, etc., as they retreated, and the campaigns of the French against them never got farther than the poison line. The poison was a native one, as deadly as arsenic or strychnine.

BALLARD'S SNOW LINIMENT

READ THIS REMARKABLE CURE

"I was much afflicted with rheumatism, writes Ed. C. Nad, Iowa, Sedgwick Co., Kansas, "going about on crutches and suffering a great deal of pain. I was induced to try Ballard's Snow Liniment, which cured me, after using three 50c bottles. IT IS THE GREATEST LINIMENT I EVER USED; have recommended it to a number of persons, all express themselves as being benefited by it. I now walk without crutches, and am able to perform a great deal of light labor on the farm."

J. W. McCollum has gone to Rabun Gap, a popular summer resort in North Georgia, where she will remain for the next month. Her sisters, Madeline Ella LaFontaine Hamilton and L. J. Knight of Ocala, have been at Rabun Gap for several weeks and Mrs. McCollum will join them there.

D. G. Harvard of Arredondo was in the city yesterday. Mr. Harvard has a home in East Gainesville, and will bring his interesting family here permanently reside, in order that the children may get the benefit of the superior educational advantages of this city. They will be gladly welcomed.

Captain and Mrs. C. B. Wingate will sell their hotel at Gulf Hammock to a party of Uniontown, Pa., businessmen after conducting that hotel with great success for twenty-five consecutive years. They will move their future home in this city to their daughter, Mrs. S. Y. McDaniel, 617 Alachua avenue.

W. J. Jones of Sampson City, member of the firm of Venable & Jones, who recently purchased the naval stores interests of J. M. Wolfenden & Sons, was in the city on business yesterday and had his name enrolled upon the subscription list of The Sun. Mr. Jones is one of the most efficient and best posted naval stores operators in Florida, and is manager of the new business of the firm without saying that it will be

Miss Ruby Hawkins, a charming young lady of Alachua, was shopping in the city yesterday. Miss Hawkins is one of Alachua county's most efficient school teachers. She taught the Tacoma school last year, and became so popular among the patrons and pupils that her return was unanimously requested for the coming term.

F. B. Godfrey, cashier of the Bank of Alachua, was among the prominent visitors to this city yesterday and made The Sun an appreciated call. Mr. Godfrey is a thorough business man, conservative and careful, and the affairs of the bank are in good hands. He reports Alachua in excellent condition commercially at this season. The merchants are enjoying a fine trade, which is increasing every day with the approach of fall.

W. Irvin Aikin, Maxey Scofield and Arthur Fletcher of Bell formed a pleasant trio of visitors to this city yesterday. They came for the purpose of purchasing buggies, and O. C. Pedrick was the "lucky fellow." Mr. Pedrick is gaining a wide reputation upon the workmanship and quality of his goods, and within the next few years will enjoy a fine reputation. His work is all hand-made and of the best materials, and will stand the wear. The people are learning this and do not hesitate to deal with him.

From Saturday's Daily Sun.

Justice J. A. Tucker of Rochelle was in the city yesterday.

Try one of my hand-made buggies. All guaranteed. C. C. Pedrick.

Mrs. E. C. Jones of Palmer was shopping in the city yesterday. This estimable lady, with her family, expects to move to Gainesville soon, in order that she may give her children the benefit of the schools here. They will be gladly welcomed.

Deputy Sheriff W. C. Hague of Hague was in the city Thursday. It will be remembered that Mr. Hague, while in the discharge of his duty several weeks ago, was shot and painfully wounded. His friends will be glad to learn that he has sufficiently recovered to "be about" again.

James R. Hague and son, Marquis, were visitors to this city from Hague yesterday. Mr. Hague, who is one of the most successful planters in the county, has reared a large and industrious family, being the father of seven children. He is one of The Sun's oldest friends and subscribers and among other business here took the time to renew his subscription.

Alderman Benson, who has been for the past two or three weeks prospecting for an additional supply of water at Boulware Springs, and who stated to the council that he had found it, yesterday made a demonstration that verified his statement. Several prominent citizens and officials who were interested went with Mr. Benson to the waterworks, where the pumps were applied, and it was demonstrated that the supply is abundant and more than

Friends of Mrs. J. F. P. Johnston will be glad to learn that she is enjoying herself at Hendersonville, N. C., where her son, Charles Johnston, is engaged in business. Mrs. Johnston will remain in Hendersonville as the guest of her son until early fall.

The gas plant of the Electric Light and Power Company, the roof of which was burned a few days ago, is being repaired, and when completed will be better than ever. A fire-proof material will be used on the building now, which will make a conflagration almost impossible.

Mrs. M. E. Taylor and daughters, Misses Anna and Gladys, have returned from Lochloosa, where they have been on a pleasant visit for the past few days. The Misses Taylor became social favorites at Lochloosa, with the result that several functions were given in their honor. They enjoyed their visit there immensely.

Deputy Sheriff B. T. Beckham of Campville brought to the city yesterday D. Stewart, colored, whom he arrested upon a warrant charging the obtaining of money under false pretenses. Stewart jumped his labor contract with John Fennell of Campville and the authorities have been on the lookout for him for the past six months.

The six-room residence on the Plaza lot, South University street, which is being erected by Mrs. Stewart, is about completed, and the painters are now putting on the finishing touches. This will be one of the most conveniently arranged homes in the city, and will no doubt rent readily at a fair price. Mrs. Stewart expects to erect two more cottages on the same lot within the next year.

Friends of J. S. Crown of Rocky Point, who is now sojourning at Cedar Key, will regret to learn that he is suffering with fever, but trust that he will soon recover and enjoy the remainder of his visit.

OVER A HUNDRED THOUSAND VOTES

Is Kirby Smith Chapter's Total Vote Polled to Date.

A GAIN OF 11,291 FOR THE WEEK

The Odd Fellows Add 8,808 to Their Total—The Contest Between These Two Organizations—Earnest Workers Fall Behind.

The voting for the past week has been between Kirby Smith Chapter and the Odd Fellows' Home, and the Chapter has come out ahead. Last week the Odd Fellows made the largest gain of any, but this week Kirby Smith gained 11,291 and the Odd Fellows 8,808. There are four voting places that have not sent in their returns for the past week, which might make a slight change one way or the other. The Sun has urged these people to get their votes counted each Friday night, so that they could be returned Saturday morning. We cannot take the time to call on each place every week for their votes. They must be sent to the office.

The following is the result as received up to Saturday evening, which shows a total vote for the week of 22,520. It is reported, however, that 10,000 of the votes received by the Odd Fellows during the week ending August 14th were cast on a real estate deal, and if such be the case this number should be eliminated from their grand total, which would place Kirby Smith Chapter 40,208 votes ahead of the Home:

Kirby Smith Chapter	101,412
Odd Fellows' Home	71,179
Earnest Workers	37,328
Union Academy	6,846
High School	5,431
Knights of Pythias	2,586
Masons	1,447
Elks	1,144

Miss Tebeau's Boarding School.

The announcement of the opening of the 31st session of Miss Tebeau's Boarding and Day School appears in another column of this paper, and the mere announcement is all that is necessary for the people of this portion of the State, as this carefully conducted institution of learning has such a popular hold on those who would have their children thoroughly trained in ethical manner, that they feel at once when the opportunities afforded are improved. September 18th is the day set for the opening, and there is every prospect of a generous patronage of students.

BOULWARE SPRING IS FREELY FLOWING

Wonderful Discovery by Alderman Benson Thoroughly Tested.

ABUNDANCE OF PURE WATER

Alderman Benson Knew That Water Was Available and After Eighteen Years of Argument Demonstrates the Fact—A Fine Flow Obtainable.

A number of gentlemen interested in the city's water supply and in the improvement of the water plant went to Boulware spring Friday and Saturday to witness some experiments made by Alderman Benson along this line.

Mr. Benson has bored several shafts through the hill at a point some 12 or 14 feet above the present outlet of the water, and to prove that he had found the true current from which we now obtain our supply, he had his workmen to send down a drill, the churning of which caused muddy water to run from the mouth or outlet of the subterranean channel, then set the force pump, having a three-inch discharge, to work. This pump, having a capacity of 275 gallons a minute, 16,500 an hour and 396,000 gallons in twenty-four hours, running to its full capacity, failed to lower in the least the usual flow into the reservoir, and therefore did not lower the stream, basin or source of supply. At noon Friday the mercury registered 88 degrees. The same thermometer kept in water as it ran from the city mains fell to 80 degrees. The water taken from the discharge of the experimental pump is 70 degrees, and with a larger pipe laid in a straight line—thus avoiding friction and the constant wearing of machinery and extra cost for fuel, and the piping placed at least five feet below the surface, avoiding the heat of the sun, and connecting with the large pipe at the large reservoir in East Gainesville, our people would have an abundance of water for all purposes, the temperature of which would not call for that fruitful source of indigestion and concomitant evils. Then, too, we would not be annoyed by rapid-growing water mosses, such as infest and befoul the average reservoir, as these do not grow in water shut out from light and heat.

The experiments of Mr. Benson exhibited have convinced any practical mind that he has solved the problem of cool water, water free from vegetable matter of any kind, and water in inexhaustible quantity.

Mr. Benson deserves a great deal of credit for his energy in this matter, which he declares he has been "hammering" away at in his various terms as alderman of the city of Gainesville for the past eighteen years. Notwithstanding that some of the brainiest men in the city have composed the council during this long term, few of them have manifested sufficient confidence in Alderman Benson's theory to risk an experiment, hence Mr. Benson was what might be termed alone in his fight for more and better water. He finally induced three of his colleagues of the present council to vote for a sufficient appropriation to bear the expense of an experiment, with the result that his theory has proved entirely correct, and the people of Gainesville now have an inexhaustible supply of pure water, which is worth hundreds of thousands of dollars to the city, especially since a system of sewerage will likely be installed within the next year.

The question of water has been a perplexing one to the people of Gainesville for many years. While the product of Boulware spring has always shown by analysis to be second to none in the South, and inferior only to the famous Poland springs' water of Maine, there has been in the dry times an alarming scarcity, but this scarcity may now be avoided, and the city will be blessed with as pure water as can be found in the world.

As a faithful assistant Alderman Benson had Harry D. Lewis, a well known contractor of North Gainesville. Mr. Lewis is thoroughly efficient in his work, and the general formation of the earth and flow of the spring assured him that there was an abundance of water. Mr. Benson received many valuable pointers from Mr. Lewis in the work, and he deserves also a great deal of credit for bringing the experiment to a successful termination.

Attention, Odd Fellows.

The regular weekly meeting of Center Lodge No. 11, I. O. O. F., will be held at the lodge room over Dutton's tank Monday evening. There will be work in the First degree. A full attendance is desired, and visiting ones will be gladly welcomed.
